

CyTSE

Cyberlearning Tools for STEM Education Partnerships Conference 2011

About the Cyberlearning Tools Conference

The Cyberlearning Tools Conference (CyTSE) is a small, exclusive event that hosts scientists, developers, and educational leaders interested in cyberlearning tools to enhance STEM teaching and learning. There will be hands-on demos, training workshops, interactive breakout sessions, focus groups, and more during the two-day conference. Specific goals of the conference include:

‡ Bringing together the cyberlearning R&D community and K-12 educators to learn with and from each other.

‡ Address important trends & issues on how cyberlearning tools can improve and extend K-12 STEM education

‡ Develop a research agenda on cyberlearning tools and their role in preparing students for the future STEM workforce

‡ Provide a forum for attendees to share knowledge and forge new partnerships

CyTSE is scheduled for the two days immediately preceding NSTA in San Francisco to facilitate attendance at both events while minimizing travel costs. What are Cyberlearning Tools?

Cyberlearning is the use of networked computing and communication technologies to support learning. Cyberlearning tools include: simulation and modeling tools, remote online laboratories, augmented reality, visual programming languages, geographic information systems, data visualization environments, scientific inquiry support environments, serious games and virtual worlds, intelligent tutoring systems, digital libraries, online media repositories, and online STEM learning communities for teachers and learners.

CyTSE Attendees

The Cyberlearning Tools Conference attracts top leaders in educational policy, governmental speakers, research scientists, superintendents, online program directors, curriculum specialists, high school reform leaders, technology directors, publishers, consultants, K-12 educators, STEM software developers, charter school leadership, content developers, and museum education outreach programs.

Why Sponsor CyTSE?

Three key reasons why sponsoring CyTSE is a good investment for your organization:

‡ Recognition - Display, promote and distribute your company's mission to K-12 educators, nonprofits, researchers, and universities through our broad recognition opportunities.

‡ Access - Capitalize on exclusive access to an exceptional group of top decision-makers in K-12 cyberlearning.

‡ Networking - Connect, engage, and interact with CyTSE participants to discover first hand about emerging ideas and technologies that are shaping the field.

CyTSE offers unique sponsorship packages (Platinum, Gold, Silver & Bronze levels) designed to meet your organization's goals for visibility, access, and reach. Our small, exclusive venue gives you significant advantages as a sponsor because of the personalized face time you will have with attendees. The conferences interactive sessions and Innovation Incubator allow you to network, receive, and convey ideas with conference guests. Sponsors are positioned to stand out at the event. Sponsors will be allowed an exhibit table where conference attendees will have

their breaks. All sponsors are recognized on the conference website (www.cyberlearningstem.org) and throughout the conference. Details on the benefits and sponsorship levels appear later in this document.

Innovation Incubator

CyTSE will feature a unique Innovation Incubator session to give sponsors direct access to cyberlearning developers, school/district/charter leadership, national policy and thought leaders. The Innovation Incubator will utilize a round-robin format where you will have the opportunity to meet these developers and leaders face to face to discuss possible partnerships and/or integration strategies and get feedback on how your current strategies align to emerging trends and policy initiatives.

Becoming a CyTSE Sponsor

To register to become a CyTSE sponsor, please complete and fax the CyTSE sponsor Registration form at the end of this document. If you have questions or would like additional information, please contact:
